

Protectas Technology SA, Rue de Genève 70, 1004 Lausanne

For our customers, business partners and  
suppliers

Lausanne, 3 January 2024

## Change of company name: SH Safe Home SA becomes **Protectas Technology SA**

Dear customers, partners and suppliers,

We are pleased to inform you that SH Safe Home SA has changed its company name to **Protectas Technology SA**.

In addition, we have adapted our social purpose: the company's purpose is in particular all activities in the fields of electronic security and safety, and more particularly: all advice, studies, concepts, projects, achievements and other services relating to electronic security and safety systems; the marketing, integration, configuration, installation, maintenance of electronic security and safety products and systems.

These changes were published in the Swiss Commercial Register on 29 December 2023. This development is part of a strategy to strengthen our position in the electronic security market at national level. Since joining the Protectas group (a company of the Swedish Securitas AB group) in 2008, we have been actively working to consolidate our expertise in this strategic sector and are convinced that this name change will strengthen our position in the field of electronic security and strengthen the trust you place in us.

The co-contracting legal person remains the same, so it is not legally necessary to draw up the contracts again. However, if you wish, we can offer you an amendment mentioning the name change. We would like to reassure our customers, partners and suppliers that this transition will have no impact on our commitments to you and sincerely thank you for your continued trust in our company.

We look forward to continuing to serve you under our new identity, Protectas Technology SA, and to contribute together to a safer world.

Kind regards,

**Protectas Technology SA**

Benjamin Chassot  
Chairman of the board  
Managing Director
